PROFESSIONAL SUMMARY

Junior QA professional and Software Development student with hands-on practice in manual, functional, API, web, Android, and iOS testing. Experienced in designing test cases, exploratory and regression testing, documenting reproducible defects, and collecting evidence. Completed a structured Manual QA Engineer training program at a1qa; currently developing JavaScript/Playwright automation skills, including Page Object Model and reusable test frameworks.

QA EXPERIENCE

AnalytixCG | Junior QA / QA Trainee | Oct 2024 – Feb 2025 | Remote

- Performed manual API testing using Postman and SoapUI, validating HTTP methods, payloads, responses, and status codes.
- Designed test cases, documented defects with reproducible steps and evidence, and supported SQL-based validation during a database migration.
- Gained exposure to AWS, Databricks, and remote QA workflows.

PRACTICAL QA TRAINING | A1QA

Junior Manual QA Engineer Training — Completed | Jun – Sep 2026 | Remote

- Executed functional, GUI, smoke, regression, and exploratory tests across web and mobile applications, including Android and iOS.
- Prepared acceptance sheets and test surveys based on specifications; tracked bugs in Jira with severity, priority, steps, results, and supporting evidence.
- Collected screenshots, recordings, and Android logs via ADB/logcat; refined deliverables through mentor review.

QA Automation Training — JavaScript & Playwright — In progress | Sep 2026 – Present | Remote

- Developing automated browser tests with Playwright Test, assertions, robust locators, fixtures, and configuration.
- Practicing Page Object Model, reusable UI wrappers, framework organization, Git workflows, and pull requests.

QA & AUTOMATION PRACTICE

- Tested authentication, forms, catalog search, shopping carts, checkout, and mobile application flows.
- Built Playwright test suites and maintained test evidence, test reports, and code in GitHub repositories.
